

SSCA Weekly eBlast - July 18th, 2019

SSCA.info

Greetings!

Along with some great weather we had lots going on in our community last weekend with the Bay Day clean up activities by SSCA volunteers. Thanks to Tom Denune and his crew for organizing this activity.

Glen Campbell and family led the first sailing race of the year on Saturday afternoon with 9 boats, off of Frying Pan Island ([Results](#)). Light winds made it challenging.

We also had a really fascinating presentation by David Sweetnam, Executive Director of Georgian Bay Forever. He was at Sans Souci demonstrating their new Autonomous Underwater Vehicle (AUV). The AUV will drastically improve water quality data measurement capabilities in the Bay and provide the ability to model, consistently, the impacts of climate change, water levels, increasing development, industrial or municipal spills, sewage overflows, septic failures, and bacterial contamination.

Sunday afternoon, Bert Liverance had over 18 aspiring artists attend his Nature Drawing art class. Bert's back on July 21st for another class. Details are below.

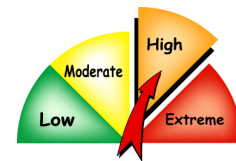

Lastly, reminder to join us at our AGM on July 27th at the Schoolhouse starting at 10:00am. We'll have updates from your board, news from the TOA and presentations from the GB5 groups. Afterwards join us for the annual member lunch.

See you on the Bay!

Eric

Eric Armour
President, SSCA
